STUDENT COMMENTS:

The classes started with basic information for those with no prior experience, covered a lot of information, and then delivered lessons in concise chunks that were easy to absorb. The presentation was clear, logical and effective. Benefits included receiving individual feedback, interaction and handouts. The classes gave us confidence to implement immediately our new skills. We didn't just learn how, but also why with a much clearer understanding of bidding and play of the game. The calm and logical method of teaching truly connected and inspired us. We can't speak highly enough of these classes. Andrew R. / Bill J. 2017

Ethel, you have helped to really improve my game....just the concentration on bidding and play has been invaluable...for the first time I have a thought process in this game....WISH THIS CLASS COULD SOMEHOW CONTINUE!!!!... I am actually making overtricks...ME!!! Never before. BUTTTTT, feel I need MORE!!! MORE OF THE SAME EXACT THING!!! I KNOW I NEED MORE!!! just to play is fine...but, so not as beneficial as following these weekly lessons. do you have a twin that you've kept hidden? Your style of teaching just cannot be duplicated...it is amazing. Sandra G. 2017
